

Questions about Google Classroom

What happened to the Classroom Google Accounts? (e.g. 8th@olgmariners.org)

To track and provide individual feedback to each student, we moved to having each student utilize their own individual school Google account for logging into Chrome as well as Gmail. **Students must log in via your own Gmail account (e.g. marty.mariners@olgmariners.org) to see their Google Classes when they access Google Classroom.** To keep you from accidentally logging into the old class accounts, we deactivated them.
