

### **Question – What if my Password(s) doesn't work?**

If you are having issues with a link or password provided, please contact your homeroom teacher via Google Classroom or via school email (e.g. [msmartell@olgm Mariners.org](mailto:msmartell@olgm Mariners.org)). Teachers have access to all the student passwords on a shared spreadsheet, and we have been finding and correcting some typos that were made in the rush to get all that information out to students/parents.

Students – please note that **your previous passwords** for AR, Edgenuity, etc. **should not have changed**. So if the one in the Remote Locker Lid is different, use the one you remember and see if that works first.

Also, ensure you are in the correct online location for these programs as schools all over the country utilize AR, Edgenuity, etc. and if you are not utilizing the site specifically for our school, your username and password will not work.
